Conscious living by Pryenka

# About Space Energy Edit

At Space Energy Edit, we design more than just beautiful interiors we create conscious, functional, and energetically aligned spaces.

Blending Interior Design, Sustainable materials, Vastu & Feng Shui, we help individuals and businesses transform their environments into spaces that foster wellbeing, productivity, and abundance.

# Our Vision

To awaken a global shift toward conscious living where spaces aren't just built, but energetically aligned.

By integrating Vastu Shastra, sustainable materials, and intentional design, we create homes and workspaces that foster flow, abundance, and inner peace.

Your space is your energy field when it thrives, so do you.

# Our Mission

To transform everyday spaces into energy-aligned sanctuaries where design meets purpose and Vastu meets modern living.

We're here to make mindful, functional, and sustainable interiors accessible to everyone whether through physical design, digital solutions, or energetic space scans so that every individual can live, work, and grow in alignment with their highest self.

# Services

## *Design & Build*

From blueprint to bliss  
Vastu-compliant interiors  
for homes and businesses  
that thrive.

## *Space Energy Scan*

Pinpoint your space's  
hidden energy blocks, clear  
actionable alignments to  
boost money flow, peace &  
relationships.

## *Vastu Consultation*

## *Sustainable Interior Consultation*

Sustainable design that  
pays back through energy  
savings and healthier living.

## *Digital Interior Styling*

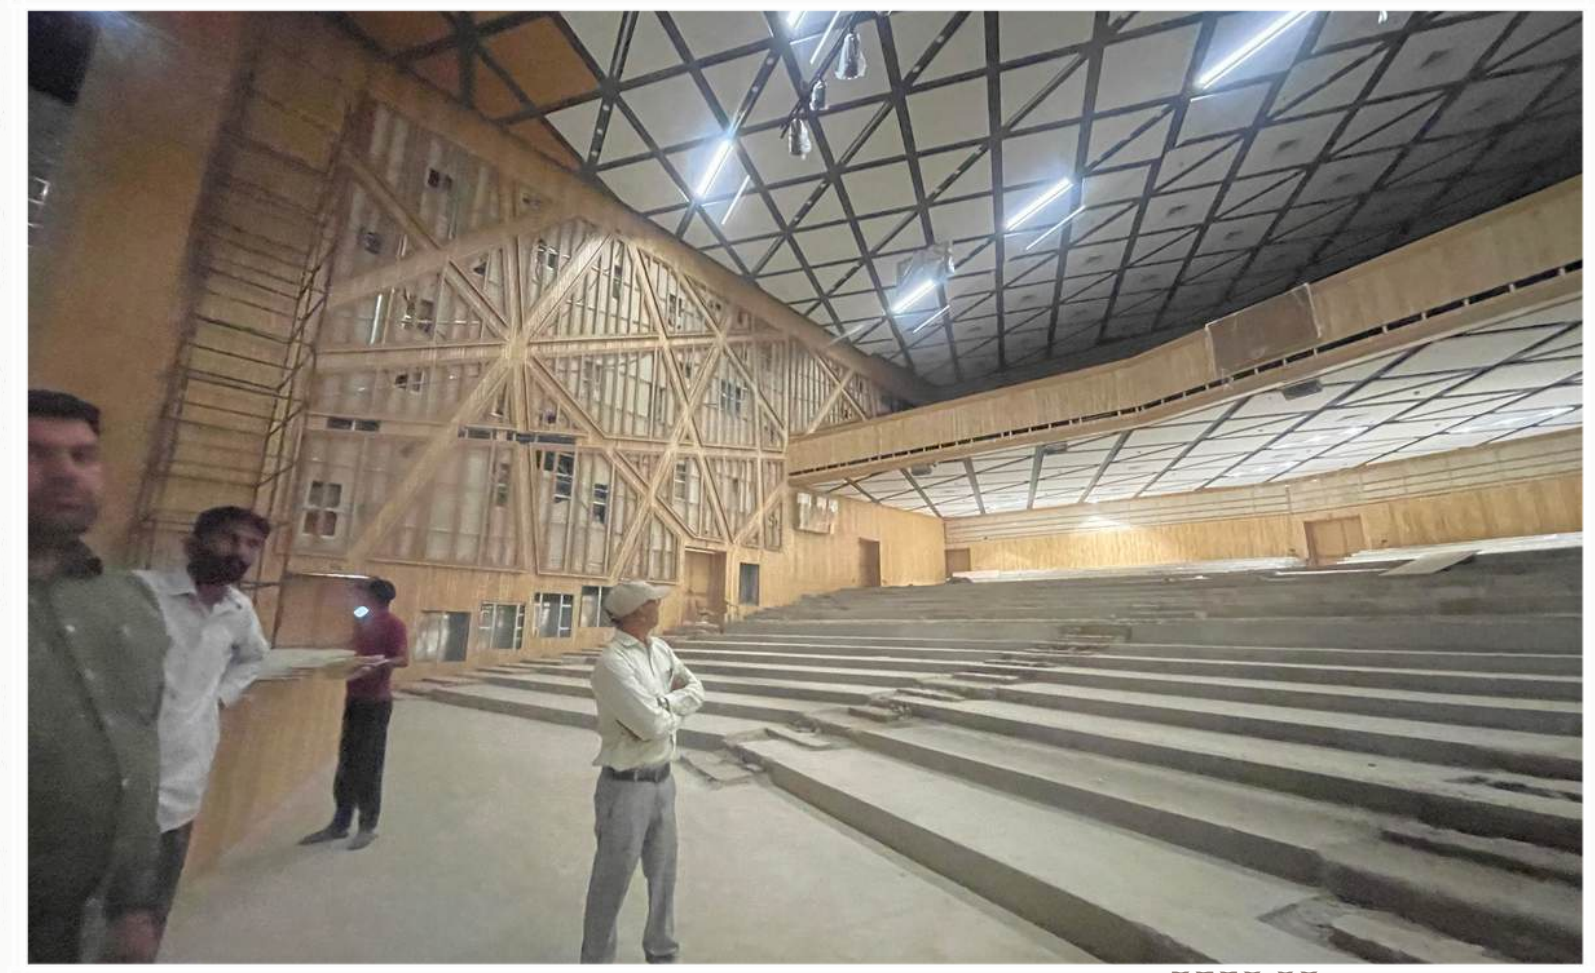

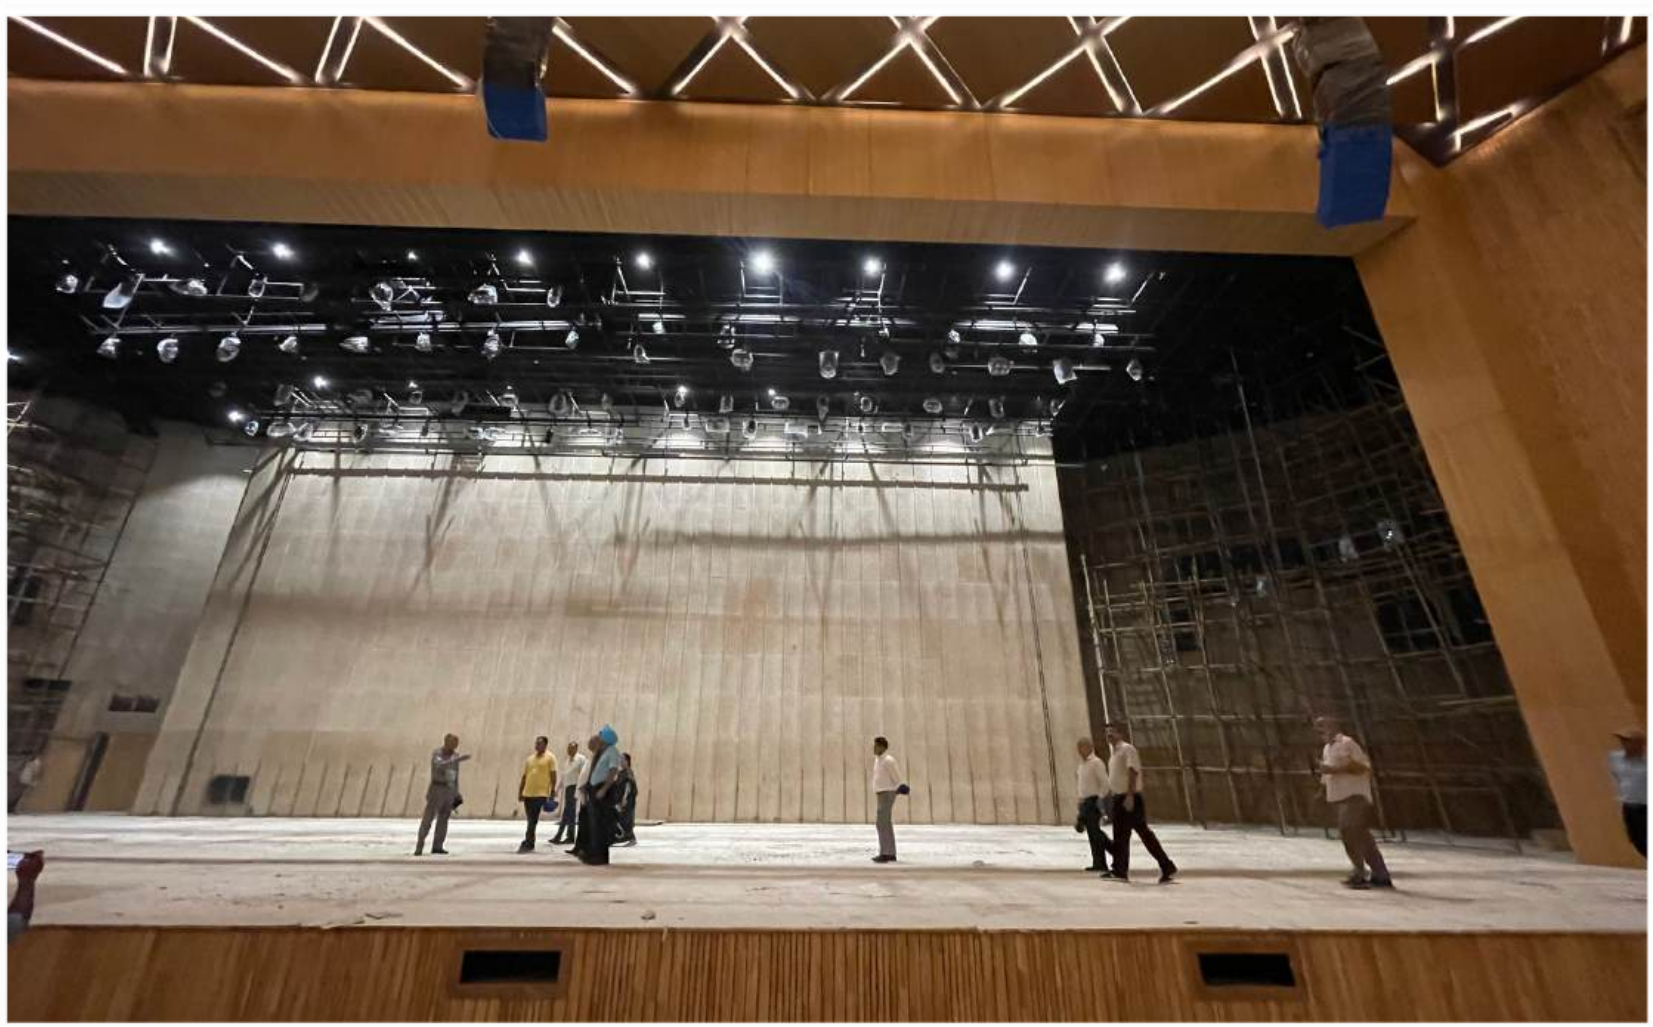

Create energy-aligned,  
functional, and beautiful  
spaces from anywhere,  
with our digital styling  
service.

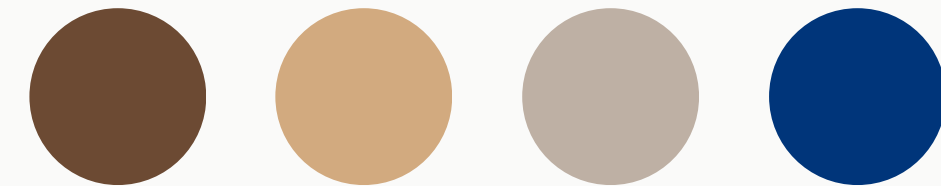

Multi-Purpose Auditorium (2500 pax)

# 01. Ongoing Project

Designing and constructing for thousands means honoring each seat equally where vision, sound, and spirit converge.

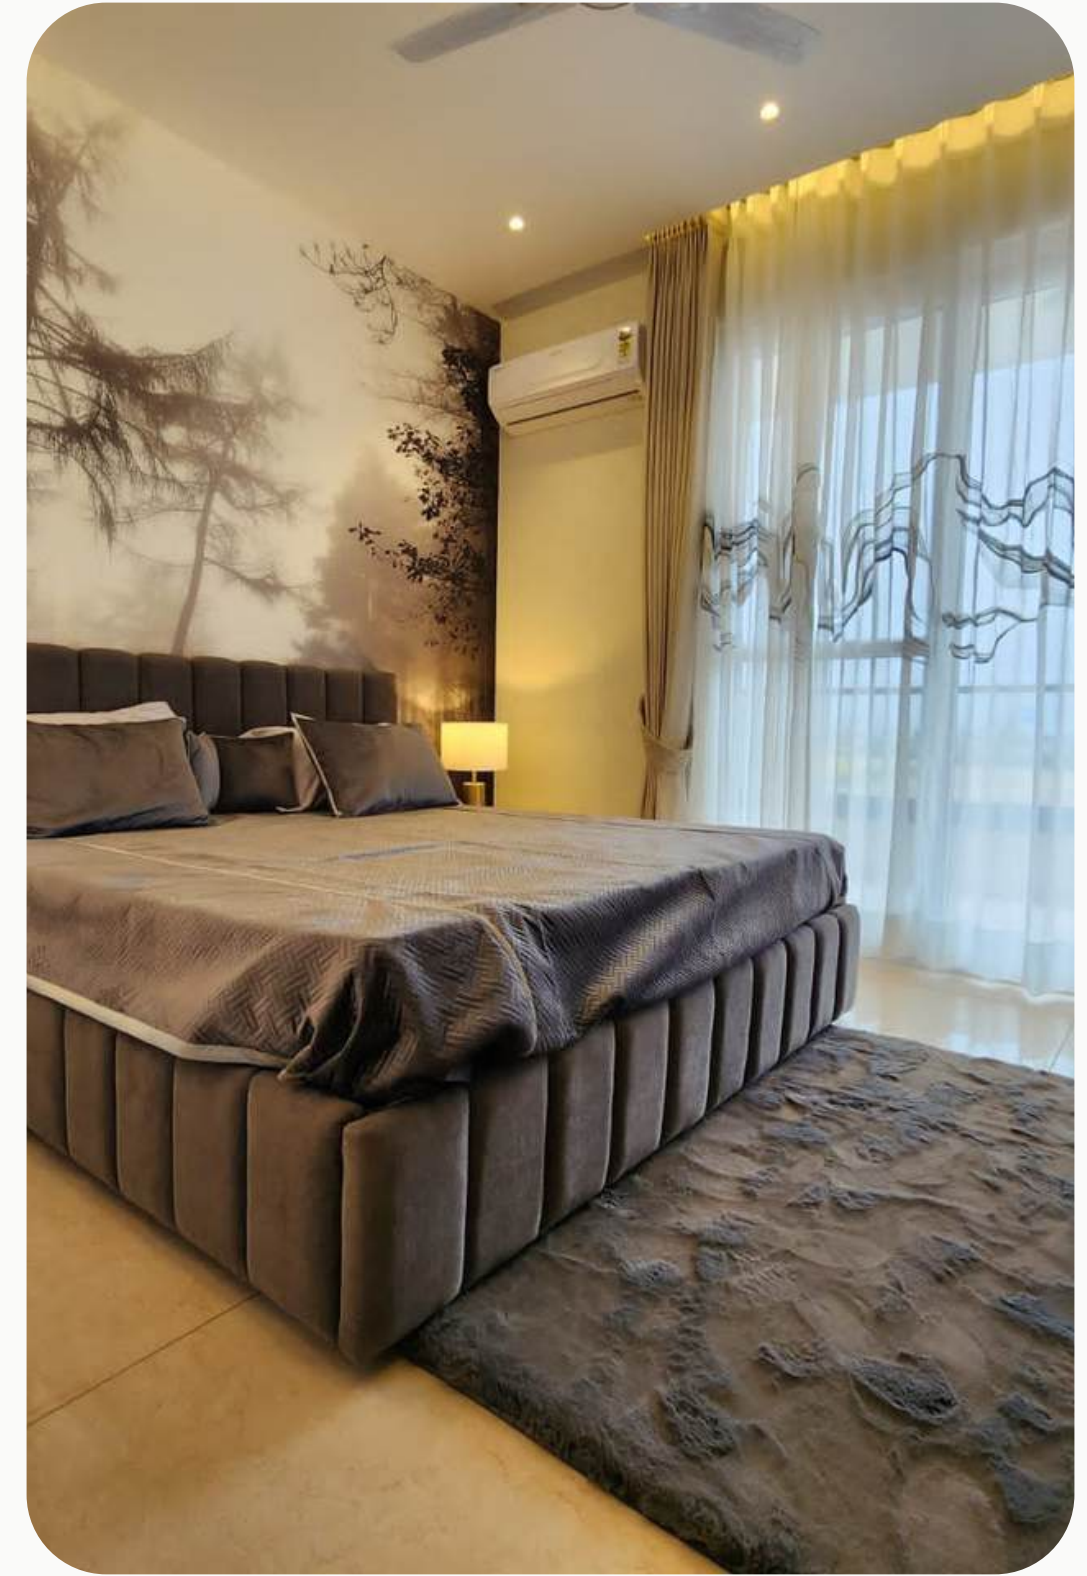

# 02. Residential Mr. Ashok

This space became a mirror of the clients' emotional evolution replacing noise with stillness, and routine with intention.

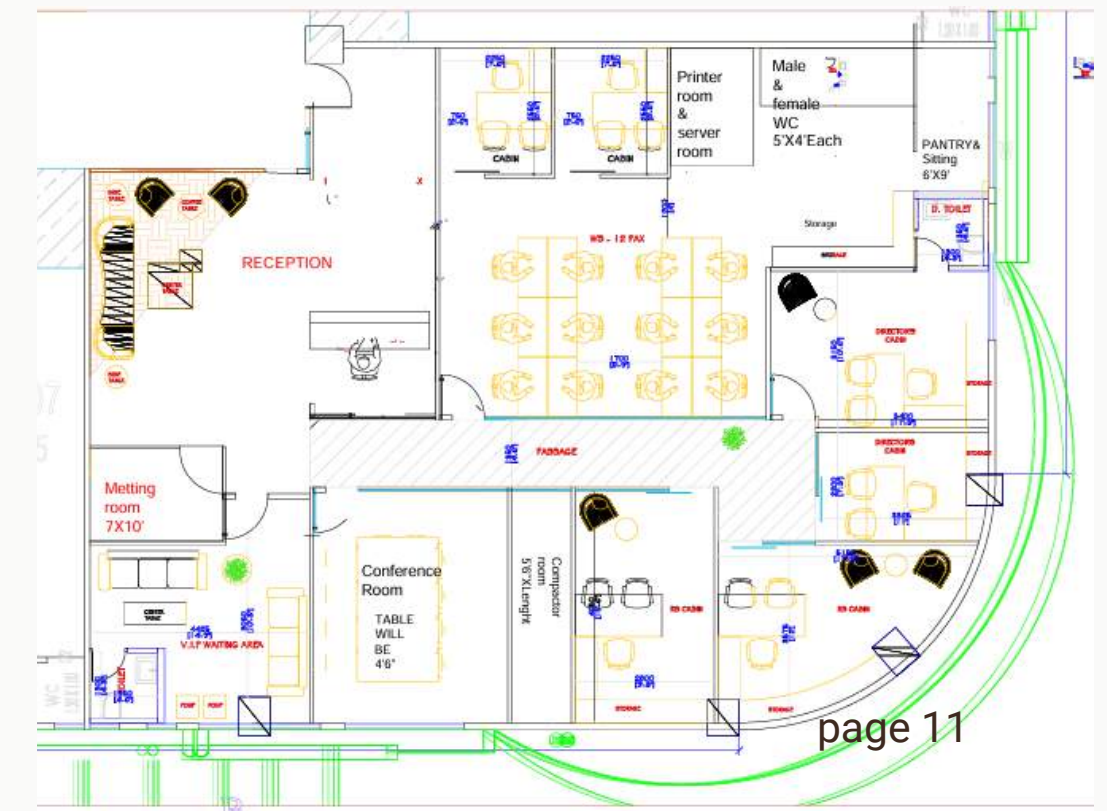

- Introduced wood and water elements through décor to harmonize energies
- Added personal altars, salt lamps, and sound elements (like bells or chimes) for daily rituals.

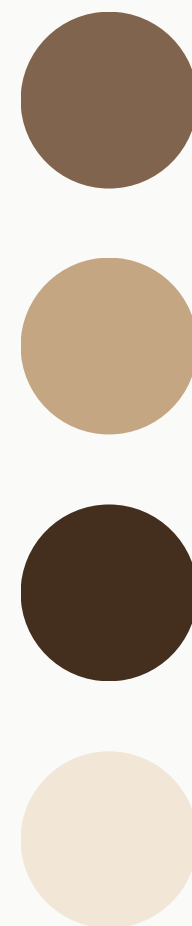

# 03. Commercial Project (2800 SQ.FT) Corporate Office

This project was about tuning into the client's vision for growth and crafting a space that supports clarity and leadership not just looks beautiful.

# 04.1 BHK

- Patial Harmonization: Addressed cold energy zones by introducing wood accents, ambient lighting, and textural layering
- Zoning by Function & Energy: Carved clear zones for creativity, commerce, and community—using partitions, color blocks, and furniture placement

- Digital Styling: Delivered curated layout options featuring exposed brick, neutral tones, metal accents, and curated wall art
- Brand Infusion: Integrated the client's visual identity across textures, signage, and accent details

# 05. Flowing Living Room for Abundance & Connection

Styling to keep energy flowing freely & conversations warm Vastu & modern design combined.

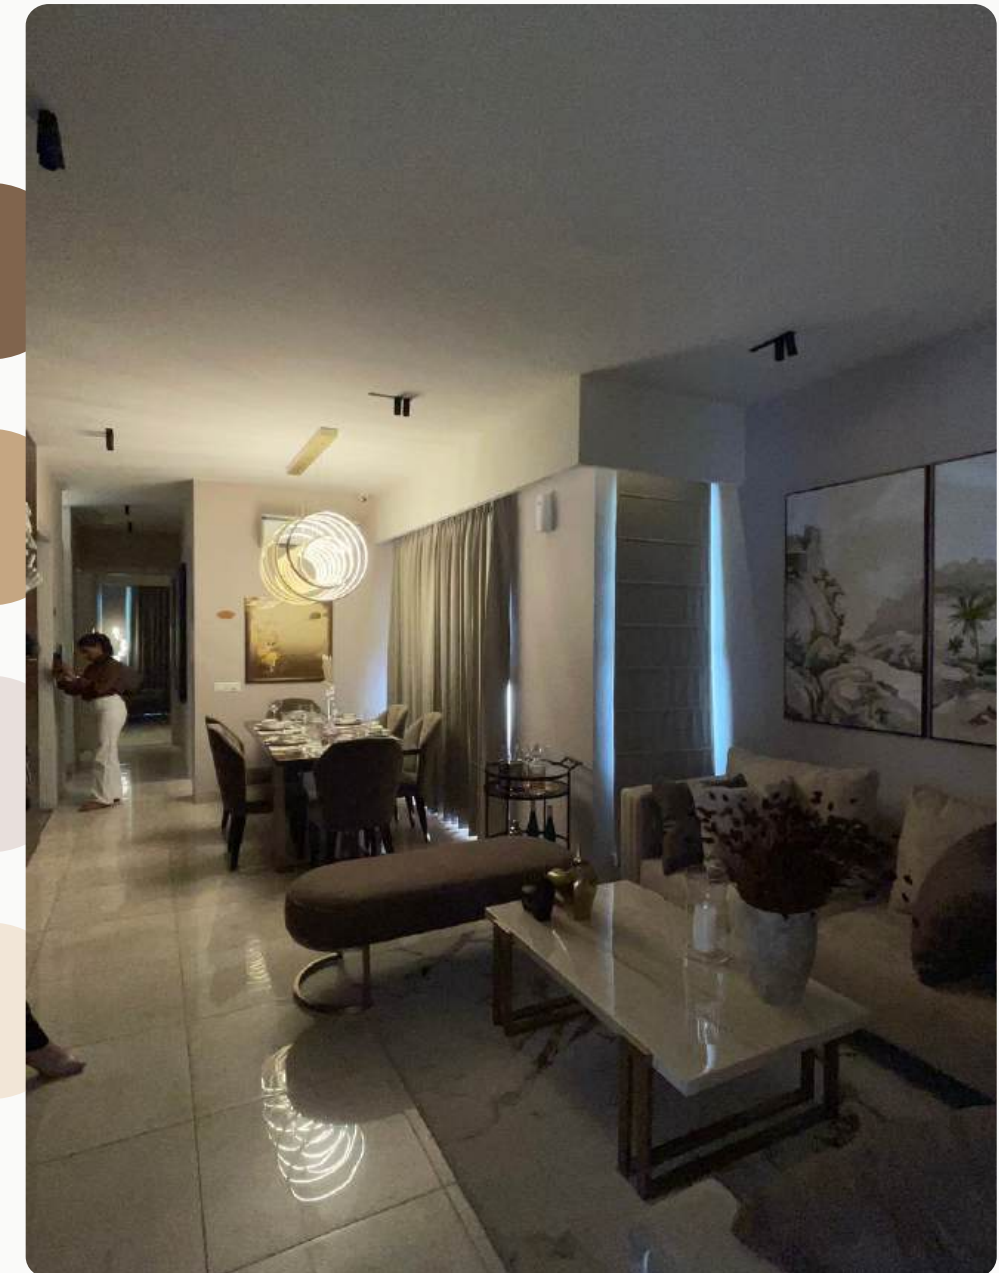

**Landscape Painting.**  
for Abundance

**Light, round table  
in the center:**
