**Ritesh Shah**

### **RITESH SHAH: FROM DOMESTIC SUPPLIER TO GLOBAL EXPORTER**

Ritesh Shah, founder of RK Global Exporter, has emerged as a rising star in the global engineering products market. After completing his Electrical Engineering and running a domestic supply business post-COVID, Ritesh received a random international inquiry that changed his path. With guidance from Bhagirath Goswami and the Being Exporter mentorship program, he mastered structured export processes, sourced reliable buyers, and successfully executed his first shipment. Remarkably, the first order required zero personal investment, relying entirely on

advance payments. Supported by his family and Bhagirath Goswami Sir, Ritesh now aims to scale operations, target full container shipments, and expand internationally. His advice to aspiring exporters: Mindset, consistency, and trusted guidance are the keys to global success.
